

A smiling woman with dark hair, wearing a white dental chair cover, is shown from the chest up. A hand is resting on her right shoulder. The background is a bright, clean dental office.

# GREAT HEALTH STARTS IN YOUR MOUTH

Research shows that preventive dentistry delivered on a regular basis greatly reduces the risk of dental disease and provides a platform for a lifetime of improved oral health.

Regular preventative care also saves you money by stopping dental issues escalating into major problems requiring costly treatments.

In fact, unhealthy gums and teeth are linked to heart disease and stroke, diabetes, arthritis, sleep apnea, acid reflux and much more. People with serious gum disease are 40% more likely to have a serious medical condition.

# WE INVITE YOU JOIN OUR AFFORDABLE PREVENTATIVE CARE PROGRAMME

## Which includes:

- 2 x dental examinations per year
- 2 x hygienist routine scale and polishes per year
- Clinical examinations for your whole mouth
- Investigation and screening by x-rays
- Screening for mouth cancer
- Screening for gum disease
- Oral health advice
- Free saliva test
- Treatment planning for future dental needs
- 5% discount on further treatment costs

We also help you budget for your dental treatments through our practice savings plan, which gives you the option of self-insuring for your dental needs.

As a fully independent practice we provide high quality care and treatment in a relaxed, comfortable and safe environment, and value the long-term relationships we have with our patients.
